BOLIVIAN ANDES

16 - 29 JULY 2022

BOLIVIA is one of the places in the world with the most beautiful snow-capped mountains in the Great Andes.

It has two large mountain systems:

- The Western Cordillera, with its highest point: the Sajama Volcano (6,542 m).
- The Real or eastern Cordillera, with beautiful and iconic mountains, such as the Little Alpamayo (5,420 m) and the Huayna Potosí (6,088 m).

We offer you the opportunity to experience a journey climbing iconic mountains, enjoying high-Andean cuisine and learning about South America's culture.

Professional Mountain Guides will guide you, they have been travelling across these mountains since 2007. They are fully trained to guide you in this adventure!

If you have climbed some mountains and you're looking for a new adventure, this is your opportunity to climb several snow-capped mountains with the best professionals.

BOOK YOUR PLACE NOW !

Our journey starts in La Paz (3.640 m). We will visit this colonial city embellished by the advance of modernity. We'll have the opportunity to visit the "Witches Market" or Murillo Park. Moving in this altitude will be preparing us for our acclimatization that we'll need in the snowy peaks.

Everything starts from low to high. So, we will continue our trip to Tuni Condoriri (4.500 m.) by vehicle. From here, we'll do a 2 hour trek arriving to Condoriri National Park base camp (4.700 m).

Once in our base camp, surrounded by Chiar Khota Lagoon, our first objective will be Pico Austria (5.000 m.) after a 3/4 hour trek. From its summit we'll have a panoramic view of many snow-capped peaks of the Cordillera Real.

Throughout our stay in the snowy mountains, guides will entertain us with their homemade meals. Gastronomy stands out in our trips. Cooking is something that our guides love to do!

After a full day resting at the base camp, we will continue ascending the Tarija Glacier facing to crown the summit of our first snow-capped mountain: Little Alpamayo (5.370 m).

After this strategic ascent and descent, alternating between breaks, our acclimatization will be optimal to continue with the ascent of Huayna Potosí (6,088 m.).

To finish our expedition, we'll have the final objective, the Giant of Bolivia: Sajama Volcano (6.542 m.).

This second part of our trip will be in the Western Cordillera. We will have included the round trip transfer from La Paz.

All the previous trek in the snowy mountains will give us everything we need to climb this beautiful volcano, being this objective one of the biggest in America.

ITINERARY

1. Arrival to La Paz/ Hotel transfer/ night in La Paz (1).
2. Transfer to Condoriri camp.
3. Austria Peak.
4. Rest in Base Camp.
5. Little Alpamayo summit.
